ACQUISITION OF BELJE, VUPIK AND PIK VINKOVCI FINALISED

On 31 January 2025, Podravka completed the acquisition of the agricultural segment of the Fortenova Group. Through the newly established company Podravka Agri d.o.o., in which Podravka holds 84.99% of the ownership and the European Bank for Reconstruction and Development (EBRD) 15.01%, the companies Belje plus d.o.o., Vupik plus d.o.o., PIK Vinkovci plus d.o.o., Energija Gradec d.o.o., Belje Agro-Vet plus d.o.o. and Felix plus d.o.o. were acquired.

Agriculture has become the third pillar of Podravka Group's business, alongside Food and Pharmaceuticals. Podravka Agri takes over the management of agricultural companies, which will continue to operate as independent companies, but now within a strong and stable group.

The transaction value is EUR 333 million, for which Podravka secured EUR 283 million through a club loan from Croatian banks, while the EBRD participated with EUR 50 million. The partnership with the EBRD brings additional knowledge transfer, world best practices in agricultural systems management and strengthening corporate governance.

This acquisition further strengthens Podravka's position among the leading domestic companies, whose majority of revenues come from international markets. It also continues the cooperation with the Fortenova group, whereby Belje, Vupik and PIK Vinkovci will maintain business relations with companies such as PIK Vrbovec, Zvijezda and Jamnica.

Podravka plans to launch an investment cycle in the acquired companies with a focus on modernizing technology, irrigation systems and improving working conditions. Caring for workers and their material rights remain one of the key priorities. Also, cooperation with existing subcontractors will continue, with the planned expansion of the supplier network, which will further strengthen domestic production and the stability of the supply chain.

With this acquisition, a new chapter began for the Podravka Group, which now records revenues exceeding one billion euros and has more than 8,800 employees.

PODRAVKA AGRI AGREED TO INCREASE WAGES AND OTHER MATERIAL RIGHTS FOR ITS EMPLOYEES IN AGRICULTURAL COMPANIES

The negotiating teams of Belje, Vupik and PIK Vinkovci, within Podravka Agri, and the representative unions – PPDIV Union, HUS Union of Industrial and Trade Workers of Croatia and Slavonia-Baranja Union, completed negotiations in April on the extension of the existing collective agreements of the companies within Podravka Agri and agreed on new amendments to the collective agreements for a period of one year.

As of 1 April this year, with the first payment in May, the salaries and supplements of the employees of Belje, PIK Vinkovci and Vupik will increase, and other material rights will also be improved. All employee rights agreed through collective bargaining will also apply to employees of Energija Gradec and Belje Agro-vet, thus equalising the material rights of workers within Podravka Agri.

Podravka Agri will invest EUR 5.7m at an annual level in increasing salaries and other material rights in its agricultural companies. The basic salary of all employees will thus increase by EUR 133 gross, which will also have an additional impact on increasing salary supplements, such as, for example, the calculation of past work and supplements for difficult working conditions. In this way, the lowest salaries will increase by about 16%, while the average increase for employees covered by the collective agreements will be more than 10%.

An agreement was also reached on non-taxable awards, which will total EUR 700 annually for each employee, and include Easter bonus, holiday pay and Christmas bonus. All awards will be paid in cash.

In addition to increasing salaries and awards for employees, it was also agreed to increase the gift for children, the daily allowance and field allowance, the value of standby hours, as well as to introduce or increase the allowance for difficult working conditions in cattle and pig farming in PIK Vinkovci. An additional step was taken towards equalising salaries, salary supplements and other material rights between all companies, so that employees would enjoy the same rights for the same or similar work.

The agreement with all representative unions, the PPDIV Union, the HUS Union of Industrial and Trade Workers of Croatia and the Slavonia-Baranja Union, was concluded just over two months after the acquisition of the agricultural companies had been finalised, whereby Podravka once again proved its strong component as a responsible employer and a high level of competence in integration. As announced on 31 January when the takeover process was finalised, one of the strategic focuses of Podravka Agri, the company through which the agricultural segment of the Podravka Group is managed, will be the improvement of working conditions and the material rights of employees.

SUCCESSFULLY IMPLEMENTED TRANSITION OF THE EXISTING SAP SYSTEM TO SAP S/4HANA

The transition to the new SAP S/4HANA is among the most complex and important projects in the digital transformation of the Podravka Group. The project is worth more than four million euros and was successfully completed in the first quarter of 2025. It covered all business processes in 23 Podravka Group companies that had used the previous version of SAP ERP, including Belupo and Žito. This significant step forward has laid a solid foundation for further digitalisation and optimisation of business processes, enabling even greater connectivity, transparency and operational excellence.

SAP S/4HANA brings modern technology that enables faster, more efficient and more connected business. With the ability to analyse data in real time, automated processes and an intuitive user interface, this system lays the foundation for even better organisation and strategic decision-making. The changes mostly cover the areas of finance, controlling and sales. A selective transformation of the existing business processes was made while simultaneously optimising and improving processes and master data.

NEW TRANSPORT CENTRE OPENED

In April, Podravka opened a new Transport Centre in Koprivnica worth EUR 3m. It is a modern logistics facility that will further improve transport and distribution processes within the company, while increasing efficiency and optimising business operations.

This investment has also enhanced traffic safety and improved working conditions. This new facility, in synergy with the new logistics and distribution centre, forms a strong operational centre that will further improve the efficiency of logistics processes.

The new Transport Centre is the latest investment made as part of the largest investment cycle in the history of the Podravka Group, worth almost EUR 250m, which, in accordance with the Business Strategy, was implemented in the period from 2021 to 2025. With this investment cycle, carried out without borrowings, Podravka has implemented a strong modernisation and transformation of its business – from investments in production capacities and process digitisation, to increasing energy efficiency and improving working conditions.

THE “ZLATA BARTL” FOUNDATION REACTIVATED

Podravka's “Zlata Bartl” Foundation is entering a new phase of its activities with programs to support innovation, education and sustainability projects. After several years of inactivity, the Foundation is now strongly entering a new development phase, focusing on financial support for innovative projects, women entrepreneurs and excellent students and pupils.

The Foundation will focus its activities on two programs – Power of Innovation and Young Leaders. The “Power of Innovation” program encourages the development of innovative solutions in the food and agricultural sector, with an emphasis on sustainability and environmental awareness. Special attention is paid to projects by female entrepreneurs, with the aim of strengthening female entrepreneurship and reducing gender inequality. On the other hand, the “Young Leaders” program is intended for pupils and students who achieve excellent results in STEM fields. It supports projects and initiatives aimed at developing the knowledge and skills needed for future professions.

The first call for applications under the “Power of Innovation” programme is worth EUR 75,000. The call is intended for projects by women entrepreneurs that improve the agri-food sector with a special focus on sustainability, environmental protection and digital transformation. Initiatives that contribute to reducing food waste, adapting to and mitigating climate change, digitising agriculture, using renewable energy sources, preventing air, water and soil pollution, organic farming and smart water management in production are supported. The call for applications for the “Power of Innovation” programme is open from 14 April until 13 June 2025.

The Foundation is named after Zlata Bartl, a renowned scientist and Podravka employee who, together with her research team, in 1958 developed Vegeta, one of the most famous Croatian products. Her innovation, vision and dedication to scientific research inspired the establishment of the Foundation and the promotion of creativity, knowledge and innovation, which the Foundation wants to pass on to new generations through its work.

PODRAVKA AWARDED EMPLOYER PARTNER CERTIFICATE AGAIN

Podravka's commitment to achieving the highest standards in the field of human resources management was once again recognised in February 2025. Thus, Podravka was once again awarded the Employer Partner certificate by the SELECTIO Group. Employer Partner is the most prestigious regional recognition for excellence in human resources management. The certificate is awarded to business organisations that have proven to meet high quality standards and the connection of practices throughout the entire human resources management system.

* EBITDA is calculated in a way that EBIT was increased by depreciation and amortisation and value adjustments of non-current tangible and intangible assets; Normalised EBITDA is calculated in a way that Normalised EBIT was increased by depreciation and amortisation.

In the 1 – 3 2025 period, Podravka Inc. recorded a decrease in gross profit of EUR 0.3m (-1.0%) with a stable gross margin of 33%. Normalised operating profit before depreciation and amortisation (EBITDA) is EUR 0.8m (-4.9%) lower than in the comparative period.

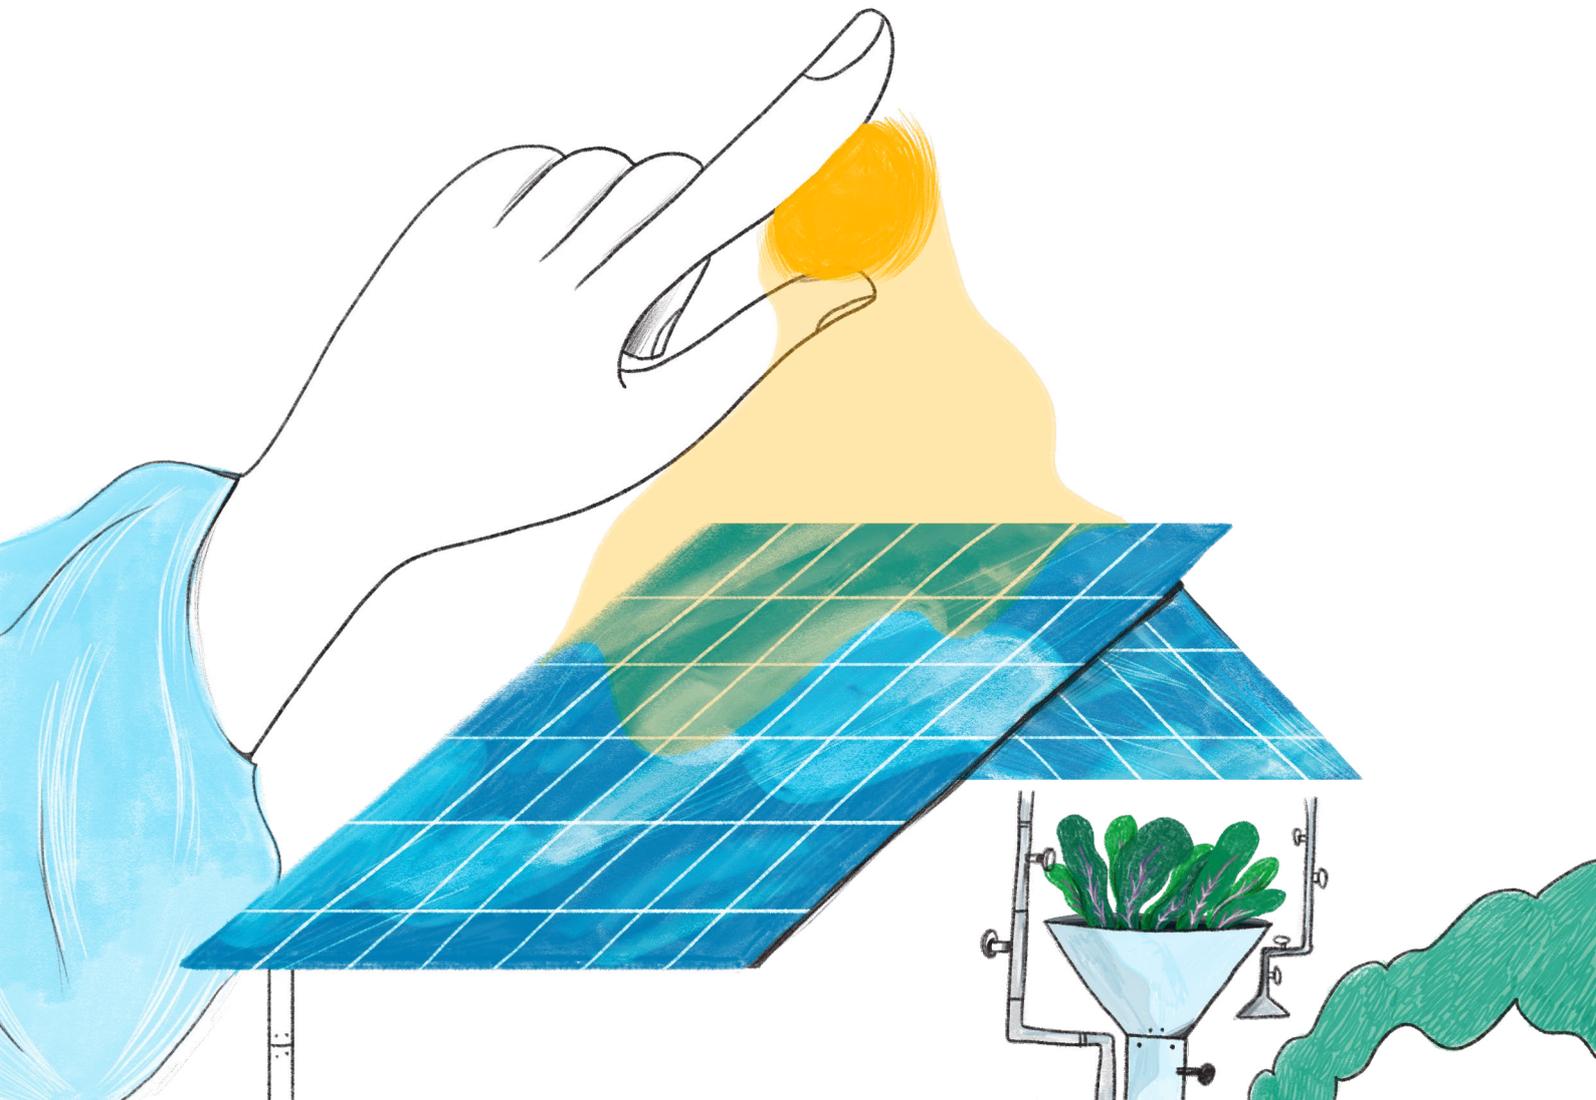

Lower Normalised operating profit before depreciation and amortisation (EBITDA) is a result of the increase in investments in improving the material status of employees, which resulted in EUR 2.3m (+11.9%) higher staff costs.

Normalised net profit is lower by EUR 11.2m (-53.0%) than in the comparative period, which was primarily impacted by the different timing of profit withdrawals from related companies, since in the 1-3 2024 period the amount of financial income from dividends from related companies amounted to EUR 10.3m, while in 1-3 2025 this income amounted to EUR 2.0m. Also, Podravka Inc. is the debtor of a borrowing to finance the acquisition of the Agri segment, therefore the financial cost is higher in 1-3 2025 than in the comparative period.
