It all started in 1934...

Podravka's history begins in **1934** with a fruit processing plant, founded by Wolf brothers in Koprivnica. In **1947** the plant becomes government owned and Podravka gets the name it has today. In **1957** Podravka's first packet soups were produced, and they were presented at the Zagreb Fair that fall.

Year 1958 is very significant for Podravka's development. That year in Podravka's research laboratories, a team led by prof. Zlata Bartl invented Vegeta, the most popular universal food seasoning in the world. Only a year later, Vegeta was launched to the market and it unstoppably headed for success.

Providing at that time a completely innovative approach to the presentation of a food product, through its application in cooking and advices of renowned chefs, Vegeta was brought closer to the consumers and took a firm hold in the position of everlasting and omnipopular universal food seasoning. "... and a tablespoon of Vegeta", a famous tagline from Vegeta's TV show lives even today in the minds of Vegeta's faithful consumers in more than 60 countries around the world.

Today Podravka is an international, basically food company, a leader in the region of SouthEast Europe. Its continuous innovativeness enables it to create new, quality products that win the consumers trust around the world.

Another significant business of this company is pharmaceuticals, under the name Belupo, where it ensures growth and long-term values for employees, users and society as a whole through recognizable partnership approach to selected therapeutic groups.

In the food industry Podravka is an innovative leader, primarily in the regions including SouthEast, Central and Eastern Europe, and it develops as a company capable of providing fast response to changes in the business environment. Its branch offices and representative offices are in 23 countries around the world, and besides that Podravka has its own distribution network in 11 countries of Central and SouthEast Europe, and production facilities in four countries. Podravka's production range contains today more than 1000 different products, and Podravka, Vegeta, Lino, Lino Lada and Dolcela belong among the most renowned product brands in the region.

The symbol of this company is a heart, and it expresses care, heartiness and love – care for consumers and all interested in this company, determination in response to the challenges of the time, feelings and love for Podravka.

Following its mission, Podravka offers innovative culinary experience and healthy living solutions for its consumers. Apart from creating numerous brands, and winning many awards and recognitions for the wide range of its business activities, loyalty of its consumers is something that is considered as Podravka's biggest success. What differs it from other companies is the ability to understand consumer needs, its high product quality and successful adaptation to increasing market demands.

Podravka's products **are of high quality, they are practical, safe due to selected high-quality raw materials, knowledge and modern technological processes.** Using the advantages of global and local, they are adjusted to national cuisines, respecting the particularities of local taste.

Podravka's basic values are, apart from its brands, its employees, knowledge and expertise they have. Podravka employs today about 6600 people who are constantly developing, owing to the investments in their knowledge, which results in numerous innovations and new products.

In more than 60 countries around the world numerous consumers have recognized the value of Podravka and its products and have given it their trust.

Podravka – Always with a heart!

We manage quality according to high standards

Food safety is a constituent, integral part of Podravka's management system, it represents Podravka's business etiquette, and the primary goal is protecting consumer health. Podravka's business quality system is actively included in the work of Croatian and international associations dealing with systemic approach to quality. Podravka's approach to food safety and quality is defined in the Food safety and quality management system policy, one of the basic documents of the management system. Podravka's activities and results in this area prove its ability to meet the demands of global markets by establishing a more effective business practice.

Integrated management system is based on the following norms:

- **ISO 9001** – Quality Management System, **ISO 14001** – Environment management system, **ISO 22000** – Food safety management system
- **OHSAS 18001** – Occupational Health and Safety Assessment Specification
- **HACCP** principles of the Codex Alimentarius – Hazard analysis and critical control points
- **IFS** – International Food Standard
- **BRC** – British Retail Consortium, food products quality and safety
- **Halal** – products aligned with Islamic food conventions
- **NSF** – guarantees water quality from spring to consumer

Podravka's products have been recognized and rewarded

- **Best Buy Award** – best price and quality ratio for Croatian consumers
- **Qudal** – best symbol and term for supreme quality
- **Trusted Brands Croatia** – brands consumers trust the most
- **Superior Taste Award** – products of high taste quality
- **Superbrands** – best brand in the products category
- **CROPAK** – Croatian reward for the best packaging
- **SIAL d'Or** – innovative products achieving commercial success in short period

It tastes good

The beginnings of Žito date back to 1947 when the People's Republic of Slovenia founded the company Žito Ljubljana. The company operated under that name until 1958. The company only manufactured grain mill products at first, but bakery wares and pasta were also introduced soon after.

Between 1964 and 1970 Žito continued growing and expanding its operations. In 1964, the company acquired Gorenjka Lesce, the only Slovenian chocolate manufacturer with over 95 years of tradition, and in 1964 it also acquired Šumi, the first and so far the only Slovenian manufacturer of various types of sweets. By acquiring Šumi, Žito expanded its operations to include other confectionery products.

In late 1976, the company Pekarne Ljubljana started preparing frozen food and became the first company in Slovenia to include bio bran in their offer, which soon became a huge market success. In the 1990s, the company underwent numerous changes in structure by equipping many points of sales with ovens for final baking and acquiring several small-scale bakeries.

In 2009, Žito took over the manufacture and marketing of teas, rice and grain mill products, as well as condiment mixes under the brand names 1001 CVET, Zlato polje and Maestro from the previous owner Droga Portorož.

The bakery product category is Žito's most important. We are challenged every day by the Slovenian market, which has a long tradition of diversified and high-quality bread consumption. Our bakeries give us a competitive edge, including in exports. At Žito we have eight bakeries, each specializing in specific production techniques. Each also possesses its own mill, allowing it full control over product quality from the grain to the customer. We make more than 25,000 tons of bread and 8,000 tons of other bakery products every year. We supply over 100 specialized types of bread and rolls to more than 15 countries and their demanding consumers. Our best products are handmade – unique in appearance they are real eye catchers in the bakery sections of any shop. Žito is known as a reliable supplier to major retail chains. We are a pride bearer of numerous award, received for the high-quality bread and bakery products we manufacture. With more than 380 golden medals and awards for quality, innovation and superior taste, combined with a tradition dating back more than 70 years, Žito is a serious player in the baking business.

In addition to bread and bread rolls, Žito's portfolio includes a wide range of recognizable and acknowledged brands such as: Zlato polje, 1001 CVET, Maestro, Natura, Šumi, Gorenjka. Žito brands offer a wide range of products with a

long tradition that has earned the trust of the customers, who recognize them as Slovenian, high-quality and healthy. This is evidenced by receiving Trusted Brand, Superior Taste Award and many others.

Žito boasts a strong position in the Slovenian market and a long culinary tradition, which is exemplified by recognizable, innovative and high-quality products. Also, the percentage of exported goods, especially final baking bread, has been rising year after year in markets ranging from Sicily to France and Scandinavia.

Žito employs more than 1300 employees, who are all striving on a daily basis to maintain and strengthen the company's mission to *"eat well, safe and modern"*. Without the commitment and resolve of Žito's employees, the company would never achieve such impressive business, which is why they should take most of the credit for the company's accomplishments. At Žito, we believe that motivation and engagement will pave the way for future success stories and new business victories.

In early October of 2015, Podravka d.d. acquired the majority of shares of Žito d.d. and became the majority owner of the company. This process was a turning point for the realisation of Žito's more ambitious regional plan. This acquisition allowed Žito the opportunity to place its products on more than 20 new markets included in Podravka's distribution network. A year later in early October of 2016, the company Žito removed its shares from the official listing of the Ljubljana Stock Exchange and was converted into a limited liability company.

Eat well, safe and modern

Žito's basic tenet is ensuring the safety and quality of our products, as well as of our entire business operations, as is evidenced by the quality standard certificates that we have obtained.

At Žito, we are all dedicated to producing quality. Our business is guided by the principles stated in our Quality Policy. Žito's mission statement is: *"Eat well, safe and modern."* At Žito, we endeavour to preserve and enrich the culinary tradition of Slovenia with the development and utilisation of advanced nutrition-related knowledge. The quality certificates guarantee consumers in Slovenia and abroad that they are buying safe and top quality food. Our main goal is to satisfy the needs of consumers, seeing that they are the only benchmark for the quality of our products and services. We would like to maintain and increase the advantage over our competitors by constantly heeding the ever-changing needs of the consumers for new cereal-, flour-, pasta- and sugar-based products. In our

attempt to realise our quality policy we are guided by the idea of turning Žito into a company acknowledged across Europe, which aims to satisfy the needs of the consumers by offering traditional as well as modern food, catering to their taste and maintaining a competitive advantage.

Integrated management system is based on the following norms:

- **ISO 9001:2015** – Quality management system certificates
- **IFS Food** - International Food Standard
- **Halal** – products aligned with Islamic food conventions
- **Kosher** – food produced in accordance with Halakha (Jewish law)
- **BIO certificate** – organically grown food
- **RSPO Suply Chain cer. System** – products made from certified sustainably produced palm oil
- **UTZ** – certificate for the promotion of the sustainable production of cocoa
- **Vegan certificate** – guarantee that each product is vegan, containing no animal ingredients or animal by-products, using no animal ingredient or by-product in the manufacturing process, and not being tested on animals.
- **Gluten Free Certificate** – designed to protect consumers with gluten-related disorders by confirming that a product meets strict standards for gluten-free safety that can be sold worldwide

Awards

- **Trusted Brand Slovenia** – brands consumers trust the most
- **Superior Taste Award** – products of high taste quality
- **Product of the year** – the highest award for excellence in customer satisfaction and innovative production
- **GZS (Chamber of Commerce Slovenia) Award** – Golden award for highest quality
- **Innovative Food Award** – award for foods that, support health or have other properties which are consumer or environment friendly

With Vegeta every meal tastes better!

Vegeta is the most renowned Podravka's brand, which has been a faithful companion to its consumers for 60 years and it gives them freedom to prepare the most delicious dishes for their family and friends as well as for themselves. Vegeta brand grew from the universal food seasoning that was launched in 1959. Today, Vegeta is a synonym for a category of universal food seasonings and a culinary brand of exclusively premium products, which include universal seasonings, special seasonings and spices.

Seasoning mix

Vegeta original is an all-purpose seasoning for all savoury dishes that has entered kitchens in more than 50 countries worldwide. It was invented by Podravka's experts, technologists, under the guidance of Prof Zlata Bartl and it was launched in 1959. The secret of Vegeta original lies in the product itself, in top quality, original recipe, a well-balanced proportion of ingredients, vegetables and spices, which blend with the dish in a unique way, featuring flavours of the main ingredients in a certain dish, without dominating their own flavour.

The quality of products confirmed by numerous quality certificates and awards by consumers and professionals

Good to know:

- it was created in 1958 and it started a true culinary revolution
- number 1 all-purpose food seasoning in Europe
- Vegeta is the strongest FMCG brand in Croatia
- a must-have product in every household – only Vegeta emphasizes the best in every dish
- culinary experience imbued through numerous tasty recipes and successful culinary stories

With its widespread range of products, which includes all-purpose food seasonings, special seasonings and cubes, Vegeta Natur offers a solution for every culinary adventure.

Recognizable flavour of quality and naturalness is brought by the sea salt from the Croatian island of Pag, turmeric is for golden colour, lovage will spice it up with the smell of a garden, and the other selected ingredients are a part of Mother Nature's recipe.

Whether playing it safe or improvising in the kitchen, there's only one rule – Vegeta Natur. You only need to let go to the richness of flavours and smells of your dishes in whose bites you can recognize the best from nature: sun-bathed vegetables and carefully chosen spices.

Good to know:

- 480 g of fresh vegetables is used for 150 g of Vegeta Natur all-purpose seasoning
- all Vegeta Natur products are additionally enriched with sea salt, and they contain only spices, vegetables and – nothing else
- Vegeta brand – a guarantee of success, exquisite and natural flavour to all dishes
- in 2018 Vegeta Natur won Superior Taste Award

Vegeta monospices

Imaginative combination of different seasonings will enrich every meal, and let the individual aromatic scents and tastes leave your culinary touch. Completely natural, without any additives, they are produced from raw materials cultivated, picked and dried in a completely natural way. They enable an inspiring and creative cooking, give a rich and full taste, and encourage you to do culinary experiments.

Good to know:

- spices are an inevitable part of every culinary story and they easily find their place in every meal
- by careful dosage you determine the intensity of the taste by yourself
- for a better and more intense taste they are added at the end of the cooking process
- naturalness guaranteed by Podravka's high standards
- carefully chosen, high-quality and a 100% natural ingredients

.....❤.....
Because of their irresistible taste, specific aroma and a 100% naturalness, spices are a reliable culinary partner in every kitchen.

Bouillon cubes

Vegeta and Podravka bouillon cubes are in the basis of development of company, reminding us that quality, tasty and healthy food is the foundation of every warm house. Podravka launched them in 1958 and since then range has been spreading and adjusting to consumers' needs. Vegeta and Podravka bouillon cubes have an expressive and full flavour and are used for preparing all salty, meat and vegetable meals, whose flavour will be completed and rounded up. Just because of its simple and wide-spread use, these cubes are an unavoidable ingredient in a modern cuisine.

A secret is in the Vegeta/Podravka bouillon cubes.

Good to know:

- ideal for preparation of soups, improving flavour of stews, risottos, sauces and various side dishes
- it will give meals an exquisite, rounded meat or vegetable flavour

LINO CEREALS

LINO KAŠICE

LINO CEREALS FOR CHILDREN

LINO NUTRI BALANCE CEREALS

LINO LADA

LINO LADA SNACK

Delicious products carefully prepared for our happy and healthy growth, from the first spoon with which we start experiencing a rich, diverse and magical world of taste.

Lino products are exactly what we need for a happy childhood, but those who are not so little anymore also like them.

Lino cereals

Cereals represent the foundation of regular nutrition. They are one of the best sources of quickly and easily gained energy and are a frequent first choice in introducing new food into a child's nutrition. In the recent healthy trends, cereal flakes are getting more and more important. They are recommended as one of the key meals every day. Lino cereal flakes are adapted to children's taste and represent a safe choice in a child's nutrition.

Cereal flakes should be a compulsory meal in children's nutrition for at least 18 months, most often as a breakfast, but also as a part of some other meal.

Good to know:

- contain all the ingredients important for a child's growth and development
- diverse and mild flavours and smooth density of the infant food make them a well-balanced and delicious starting food for children, easy to swallow, as well as an introduction into eating food on their own
- easily melting flakes enable good digestibility and absorption of energy and nutritious ingredients
- enriched with vitamins and minerals needed for a child's healthy and regular growth and development
- quality is guaranteed by carefully chosen and controlled ingredients
- don't contain preservatives, artificial colours or other additives

Lino Nutri Balance Cereals

By following trends and listening to its consumers Lino has broadened out the category of breakfast cereals. The result is a compound of dehydrated cereals, well-known in the category of baby food, crunchy cereals and superfood ingredients chia and oats under the name Lino Nutri Balance.

Lino Nutri Balance comes in two kinds: Lino Nutri Balance CHIA and Lino Nutri Balance OATS. Perfectly balanced whole grain ingredients offer a rich meal that can be made in the blink of an eye: mix it with water and it's ready for eating. New line of Lino products has everything necessary for balance of vitality and strength, which helps the balance of happiness and beauty of everybody who tries them because, after the first bite, new favourite breakfast is guaranteed.

We expanded the range with a new gluten-free product Lino Nutri Balance Chocolate 320 g, based on rice and chocolate enriched with vitamins from B group and vitamin C, which represents the balance of happiness and good mood.

Lino cereals for kids – GLUTEN-FREE

Gluten-free diet for children has been widespread recently, either as a necessity for this kind of food because of celiac disease, that is, children's body is very sensitive to gluten, or because of parents' attitude that gluten-free products are healthier and better for children. But sometimes it is not easy to get on with that kind of nutrition, so Podravka, following those trends, enriched the selection of products with two kinds of gluten-free cereals for children: Lino Honey rings and Lino Choco caramel flakes.

Gluten-free Lino cereals are produced in a specially built and certified department in the Cocktail factory, where the conditions for gluten-free production are impeccable. Top quality is proved with a licensed Crossed Grain symbol, so parents can always be certain that they are giving their children a delicious and quality meal that is gluten-free.

Lino Lada spreads

Lino Lada spreads are top quality products because they are made exclusively from natural ingredients, milk, hazelnuts and cocoa.

Today, you can find Lino Lada spreads in five different flavours, and you can hardly decide which is the best one. Consumers' opinions are divided. For some, Lino Lada Duo is the best, because it is black and white. Some prefer white Lino Lada Milk with a lot of milk. Those who like exotic flavours will reach for Lino Lada Coconut, and those who only accept hazelnut will try to convince everybody that Lino Lada Nougat is better than the others.

Lino Lada Gold is a new flavour designed for the most fastidious consumers. It is about a combination of the easily spread hazelnut cream and finely chopped hazelnuts – 16 per cent hazelnuts in a jar. Lino Lada Gold is a rich creamy spread launched as a reward for the faithful consumers.

.....♥.....
With Lino Lada
every chore
is easier and
every gathering
happier

Good to know:

- Lino Lada is of top quality, it is perfectly spread and can be found in a wide range of flavours and packaging

Lino Lada pillows

Lino Lada pillows are crunchy cereal pillows filled with Lino Lada. They contain 55% of Lino Lada and 45% of cereals which gives them a superb full flavor of Lino Lada in a crispy pillows wrapper. Compared to previous Lino pillows, they have much more Lino Lada filling, they are bigger and square shaped, and the taste of Lino Lada is much more dominant. In addition to the high quality of all ingredients and perfect combination of cereals, milk, hazelnuts and cocoa, the Lino Lada pillows are also distinguished by modern packaging with a combination of matte and glossy design elements. On the front of the packaging there is a design element in the shape of Lino Lada jar to associate the consumers with the consumption of cream spreads. Since Lino Lada cream spread has the largest share in the product, the primary shelf positioning is planned in the Lino Lada block, and the secondary among other confectionery products

CONFECTIONERY

.....

ŠUMI CANDY
GORENJKA CHOCOLATE

A candy comes from a French word 'bon-bon', which means 'good', and it's especially loved by children. Delicious taste of this little habit is characterised by numerous attractive shapes and flavours enriched by fruity and functional additions.

Choose your favourite Šumi candy that, in its wide and rich selection, gives nostalgia and richness of flavour.

Šumi candy

The rich selection of Šumi candy offers a sweet playfulness and fun in numerous shapes as well as alluring flavours. They contain extra vitamins and no artificial colouring or flavours, they have a high fruit content and follow the trend of delivering delicious fruit flavours.

A very special product are our juicy fruit jellies of 100% herbal origin, which makes them suitable for vegans and vegetarians. See what true fun and fruit energy taste like with Šumi candy.

Good to know:

- natural ingredients without artificial flavours or colouring, with fruit juice and without GMO
- wide selection across all categories: soft, toffee, hard, MIX candy
- Mega tattoo toffee offers a special treat, an attractive tattoo hidden in every piece of candy
- they are great as gifts or for parties and celebrations

Chocolate

Gorenjka chocolates with their exquisite taste bring joy to all lovers of this precious sweet delight for almost a century now. The quality of Gorenjka chocolate is ensured by the use of highest quality ingredients, variety abundance of flavours created from our recipes and product development by following trends.

Gorenjka range includes pure milk and dark chocolates, milk and dark chocolates enriched with hazelnuts, various fruit flavours and fillings, rice chocolate with a unique recipe, Swiss rolls and sponge cakes and cooking chocolate.

Good to know:

- the story on how the chocolate came about begins with a small cocoa bean that represents the basis of the chocolate.
- Gorenjka acquires raw materials from the Ivory Coast.
- the Gorenjka chocolates have been spoiling the sweet-toothed for almost a century
- in the days of yore, even members of royal families treated themselves with them while spending their holidays in Bled

Tasty, healthy and natural dishes of the Mediterranean cuisine contribute to your health, enable creativity in preparing dishes and offer enjoyment in the best fruits of nature and sea.

Tomato products and sauces

In every cuisine, especially in a Mediterranean one, tomato is one of the inevitable ingredients and it goes perfectly well with a whole range of foods.

Tomatoes are full of lycopene, which is a strong antioxidant, and its value is preserved in Podravka's tomato products. The best-selling product is Passata 500 g (tomato puree), a 100 % Istrian tomato. Podravka's tomato products are an excellent and an unavoidable supplement to soups, stews, goulashes, and sauces in everyday cooking.

.....❤.....
Source of health
and vitality.

It's good to know:

- tomato is the basis in Mediterranean cuisine
- Passata (tomato puree) 500 g and 680 g is a 100 % Istrian tomato, which is characterised by controlled planting in the open fields near the seacoast and processing within 24 hours from the picking
- 100 % natural products
- functional food
- low in calories
- highly nutritional value

FISH PRODUCTS

.....

EVA
MIRNA

Eva products, prepared in a traditionally simple way with salt and sorted vegetable or olive oil, can be used for numerous culinary combinations and can find their place in different dishes.

Eva fish products bring true pleasure from the sea depths. They are prepared from the most quality fish parts, and they are rich in whole proteins that contain essential amino acids and minerals. Top quality is highlighted by natural flavours, which proves once again that the most excellent food comes from the heart of the sea. The blend of these great flavours is an ideal meal, but also an irreplaceable supplement that will enrich salads, sauces, pizzas, pasta dishes and rice. Enjoy this quick meal without giving up quality!

The tradition of hand salting fish fell to the side with the arrival of industrialisation and the opening of fish tinning plants. The first factory of this kind was opened in Rovinj in 1877, owned by the company Société Générale Française de Conserves Alimentaires, and was one of the first fish tinning factories in the world. The Ampelea factory was built upon the foundations of this first plant, and it operated successfully until 1954, when the name was changed to Mirna. Today, the torch of this proud fishing tradition is carried by the Podravka Group, the parent company of Mirna since 2014.

True pleasure from
the sea depths!

It's good to know:

- oily fish – brings more benefit to our health
- Adriatic sardine – naturally rich in Omega-3 fatty acids
- fillets, chunks, and smaller chunks – naturally rich in proteins
- quality mackerels are abundant in amino acids, minerals and vitamins
- tuna pâtés are made with top-quality tuna fillets

Mirna fish products come from the Adriatic. They are prepared in a traditional way and with their top quality they highlight the natural flavour. They are ideal for preparing pasta dishes, in salads and pizzas. They enable a quick preparation of a tasty meal.

.....❤️.....
A quick and
delicious
meal from the
Adriatic Sea!

It's good to know:

- The factory Mirna in Rovinj is, in the true sense of the word, the successor to the centuries-old fishing tradition of western Istria.
- Since 2017, the Mirna factory has operated as the most modern fish processing plant in this part of Europe, using state of the art technology and equipment with the highest level of automation, while paying special attention to preserving the full nutritional value and flavour of the local fish. In doing so, only the original recipe is used, as it needs no improvement. It is based on only three ingredients – cleaned fish, a little salt and a little oil. Nothing more.

CREATED BY NATURE, PRODUCED BY

FRUIT PRODUCTS

.....

SPREADS AND JAMS

Podravka's fruit products are the synonym for quality, practicality and safety. They are the result of a long-established tradition, knowledge and care for the well-being of the consumers. They are made from selected and high-quality raw materials and modern technological processes which preserve nutrients in all ingredients.

Fruit products

The forerunner of the company Podravka was a workshop for fruit processing and a jam factory founded by the brothers Marijan and Matija Wolf. From 1949, Podravka started producing fine jams and they are still produced until this day.

Podravka converted the richness and abundance of orchards bathed in sun into the best products that nature can offer. Delicious and juicy fruit come to your table in the form of Podravka jams, marmalades, compotes and honey. Podravka jams contain more fruit in one jar than you can imagine and extra jam – with even more fruit, will satisfy even those who count calories. Made for all of those who want something juicy, sweet and healthy!

When you want to give your palate a special treatment.

Good to know:

- natural and healthy
- traditional recipe and high fruit content
- plum jam holds the label 'Genuine Croatian Product'
- compotes are ideal as a light meal or for preparing other sweets

CONDIMENTS

.....

AJVAR
MUSTARD

A lot of vegetables and harmonious flavor make Podravka's condiments irresistibly attractive in all gastronomical occasions. We select only first-rate vegetables because of which these products give dishes a naturally strong flavour and can be a lot more than just a side dish. They can be used in preparing various and imaginative meals.

Condiments

Podravka's condiments with a rich home-made flavour are indispensable products in every kitchen. Ajvar, mustard, ketchup and horse radish perfectly blend in with various meals so they are often used as a basic ingredient during cooking and with that become much more than just a side dish. With a rich and versified range, today they are irreplaceable groceries of every modern family.

.....❤️.....
Out of nature.
From the heart.

It's good to know:

- they enrich the taste of numerous meals including barbecue, sauces, salads and pasta
- abundance of preservative-free vegetables in every chutney jar
- recognizable, homemade taste
- blend of attractiveness and originality

PASTA

RICE

MILL PRODUCTS AND PULSES

NATURA

Zlato polje and Lagris with their wide range of products provide high quality and inspirational food from Nature in terms of health perspective and value added nutrition by bringing innovative, time saving and inspiring culinary experience into modern kitchen in every day life.

Pasta

More than 90 years long tradition of making pasta is a good reason to have belief in the quality of our products. All of it is made of durum wheat. Zlato polje is well-known for its pasta made with eggs and special pasta, and it follows trends in the food industry.

Good to know:

- pasta is made with 100 per cent durum wheat, so it won't get sticky or overcooked
- practical 'nests' for simpler dosage and cooking
- pasta with multiple awards
- special kinds of pasta are a source of fibres, minerals, and an ideal meal
- Zlato polje is the strongest brand in the pasta and rice segment in the Adria region

Rice

Rice ranks among the oldest cultural plants of the world and one of the most important grains from the perspective of human nutrition. Nowadays rice contributes to healthy, natural and balance diet. Zlato polje and Lagris rice offers a wide spectrum of different kind of rice, carefully chosen and prepared from the raw material to the final consumer products. While Zlato polje rice products are of Italian origin, Lagris rice comes mainly from Asian fields.

Good to know:

- a wide and innovative range of products
- a perfect ratio of price and quality
- vacuum packing offers an additional protection and prolongs shelf life
- Lagis is the strongest brand in the rice segment in Central Europe

From the treasury of nature

Natura is pionir in organic food on Slovenian market since 1990. Organic products come from regions where nature still follows its own way. Naturally produced grains and seeds contain all the characteristics and diversities of cereals and legumes, thus fully preserving all their qualities. The products are made with ecologically produced and treated ingredients. Organic products are given the highest level of our attention, as Žito is fully aware of the importance of healthy and safe food.

Good to know:

1. At Natura we strive to maintain **the whole value of foods**. We bring to your table ingredients from homegrown fields, which are rich in nutrients and full of flavour. The whole production process is done internally – **from source to the packaging**.
2. At Natura **we purchase from local producers** – Slovenian raw materials if available; or other raw materials with the corresponding certificates and quality.
3. **Natura respects environment**. By purchasing organic products in the fragile eco-system we help the environment to remain as clean and people and other species friendly more than today.
4. At Natura we are **providing safety and quality** of our products. Natura products have the European Eco-label for certified organic foods.

BAKERY
.....

We dedicate special attention to high quality which is proven in each step we take. We are guided by selecting the highest quality flour of verified origins and the preparation of products via prolonged production procedures using the most modern technology. Last but not least we place special focus on the supervision of freezing, storage and transport of the products.

Bakery

The baking of our pre-baked products at sales locations has many benefits: it is possible to adjust availability to meet demand. Simply baked on site sold products are always fresh, and when they are baked on site they create that tempting aroma that encourages consumers to purchase them. Žito's pre-baked products are partially baked meaning that the crust has been formed but has not yet coloured. These products are rapidly and simply baked and their best use period is extended according to the regulated storage regime (from 3 to 6 months).

Good to know:

- Keeps the products at points of sales warm and fresh for consumers
- Baking creates an alluring scent that urges consumers to buy the product
- Products of the highest quality are always in stock
- Final baking ensures the sale of all or the vast majority of products

TEA
.....

A wide range of different types of tea to suit different lifestyles and moods allow you to make your day special.

Find you favorite cup of a tea in a wide range of rich and varied flavors!

Podravka tea

Tea is pleasant and refreshing beverages that wakes you up in the morning, relax you in the evening, warm you up in winter and refreshes you in the summer. Podravka's teas are made from carefully grown and picked and even more carefully combined with ground herbs and fruits, in a proportion that gives them unforgettable scent and flavour. For a daily enjoyment in Podravka tea we provided aroma wrappers that preserve scent and flavor of each tea until the moment of preparation. With this packaging method, all the natural properties of tea remain fresh and intact until the moment of its preparation. Every time you open a bag of Podravka tea, you will be able to enjoy the rich scent and flavor.

My cup of tea full of
scent and flavour

Good to know:

- products of exceptional quality and full of scent and flavor
- modern packaging with aroma wrappers that preserve scent and flavor of each tea until the moment of preparation
- wide range of flavours
- interesting tips to use tea: beverage, cocktails, smoothie and cold refreshments

MEAT PRODUCTS PROGRAMME

.....

PÂTÉS

LUNCHEON MEAT

MEAT SAUCES

READY-TO-EAT MEALS

With a wide range of traditional and modern flavours – pâtés, ready-to-eat meals, meat sauces, and luncheon meat – they are fast and delicious meals in any occasion and a superb enjoyment in gourmet flavours.

Meat products programme

You want your dish to be simple but nevertheless tasty, top-quality and to have high energy value, to be consumable without additional preparation but at the same time a part of creative culinary solutions, at home or at work, at school or outdoor, to have a long expiration date and easy handling. All of these wishes can be met by any of our products from the variety of meat cans and we can be certain that they follow our hectic lifestyle.

It's good to know:

- excellent idea for a quick and tasty dish at any occasion
- strictly controlled quality and product traceability
- modern technology enables the preservation of valuable nutritional substances
- exceptional spread and consistency of pâtés
- wide offer of traditional and modern flavours for everybody
- as a main dish and for preparing imaginative delicacies
- wide ranged offer, long expiration dates and easy handling

Podravka's culinary promoters

Podravka's team of culinary promoters works with the same members practically since it was founded 15 years ago, and during that time it has become one of the most recognizable and most active in all the markets where Podravka's products are used. Being constantly present on Podravka's markets, they bring and collect expert knowledge and in some way they are ambassadors of gastronomy in this region, because they make contacts and bring together cuisines, chefs and pastry masters with one another.

Their results are shown through their work:

- tracking and making of trends
- contact with buyers
- participation and organization of manifestations
- presentations, education and professional lectures
- professional partners to the Faculty of Tourism and Hospitality Management and trade schools

- Cooperation with the Croatian Culinary Federation
- Olympic Games in Athens (2004) and Beijing (2008) - presentation of Croatia and Podravka in Croatian houses
- presentation of Croatian culinary heritage in the UN building 2007
- the first presentation of Croatian gastronomy in the European Parliament building in Brussels 2013
- presentations in Croatian embassies all around Europe
- participation in many international fairs (Köln, Moscow, Taiwan)
- building the biggest stuffed cabbage roll for the Guinness book of records
- building the biggest pancake and cakes
- participation in many culinary shows in the region
- devising and creation of new products, along Podravka's team of technologists and nutritionists
